ONE CHAMPION

for your electrical, systems, and automation needs. We're here for you through every phase of your project and throughout the life cycle of your building.

ELECTRICAL | Planning, design and installation of the cabling and components that make up your electrical infrastructure. You get improved constructability, quality installation, accurate estimating and efficient turn-over.

MULTIMEDIA, TECHNOLOGY AND LOW VOLTAGE SYSTEMS |

Installed by AVIXA and BICSI certified technicians and delivered with expertise that includes low voltage networks, audio visual, DAS, and security systems, you get quality systems technology that meets your business needs.

BUILDING AUTOMATION & CONTROLS | Development and implementation of building automation systems and building controls that enable your infrastructure, technology and people to work together as sustainably and efficiently as possible.

PRECONSTRUCTION, FABRICATION & PROJECT SUPPORT |

Our estimators, design-build specialists, project engineers and VDC professionals help improve budgets, schedules and safety by streamlining job-site materials and labor requirements.

ENERGY SOLUTIONS | Our staff, which includes LEED APs, helps find ways clients can use energy more efficiently, from small changes such as switching to LED lighting to larger facility transformations.

PREVENTATIVE MAINTENANCE & 24/7 EMERGENCY SERVICES |

Quality service coupled with an electrical preventative maintenance program reduces accidents, saves lives and minimizes costly break downs and unplanned shutdowns.

RESIDENTIAL SERVICES | A home is the biggest investment most people make, which is why our certified technicians provide quality work in a safe and efficient manner.

THE ERMCO ADVANTAGE

Established
April 1962

2023 Revenue
\$243,800,000

2023 Manhours
1,400,000

Number of Electricians
and Technicians
800+

Number of
Corporate Staff
135

STRONG HISTORY

Over six decades of family- and employee-owned

INDUSTRY LEADER

In safety, quality and technology, such as fabrication and BIM/VDC, that improves the client experience

CONNECTED PARTNER

Extensive partnership experience including design-build, design-assist, JV, IPD, and XBE

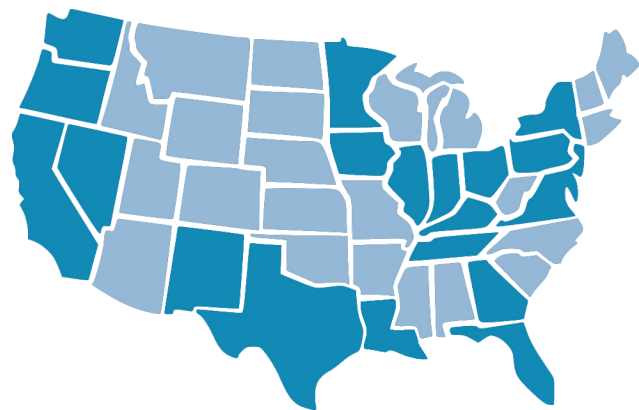

SINGLE SOURCE

Design, installation and maintenance services for your electrical, systems and automation needs

NATIONAL PRESENCE

Dark blue indicates states where we have completed projects.
