

BENEFITS ERMCO BRINGS TO A DESIGN-BUILD TEAM:

- Experienced design-build leadership, reducing risk for the owner and providing improved constructability.
- Early involvement that allows for a better understanding of scope, enabling us to provide a firm budget earlier in the process and cost control throughout the project.
- Expertise in electrical, systems, building controls and automation, giving you one champion and one point of contact.
- A VDC (virtual design & construction) team that works closely with operations, fabrication, and field leadership to identify and implement the best project delivery approach.
- In-house expertise including LEED AP, RCDD, RPTM and CTS certified systems technicians (CTS, CTS-I & CTS-D).

DESIGN BUILD DELIVERY

HELPING YOU MAKE INFORMED DECISIONS

An integrated team improves collaboration, encourages innovation and produces quality results in less time and cost than traditional methods. Early engagement of the construction team allows for informed decisions to be made during design, reducing exposure to added costs. This leads to faster project delivery and improved constructability.

OUR SERVICES INCLUDE:

- Electrical
- Systems
 - Structured cabling
 - AV, DAS, mass notification
 - Security and access controls
- Building automation and controls
- Energy solutions
- Estimating from concept through final documents
- Strategic vendor partnerships
- Fabrication
- Construction services
 - VDC and 3D modeling
 - Construction scheduling
