

YOU COULD BE THE NEXT

VDC ENGINEER

ERMCO's VDC Engineers are project champions, helping set the stage for a project's success. As a VDC Engineer, you are responsible for implementing the latest construction technology to assist in project coordination, fabrication and layout. You are involved with the project from start to finish, collaborating with other ERMCO team members and trades.

IF YOU ARE:

- ◆ Organized and detail oriented - accuracy is critical.
- ◆ Tech friendly - enjoy working with computers and learning the latest software.
- ◆ Self motivated - driven to see projects and tasks all the way through the project life-cycle.
- ◆ A problem solver – you excel at identifying issues, analyzing possible solutions and deciding on the best course of action.
- ◆ Innovative – passionate about experimenting and finding more efficient ways to do things.

AND YOU:

- ◆ Like variety – ERMCO performs all types of projects that vary greatly in size, scope and market.
- ◆ Enjoy a fast-paced environment that can change quickly.
- ◆ Communicate effectively – with customers, clients, team members and vendors.

BENEFITS OF BECOMING AN ERMCO VDC ENGINEER:

A great team – work alongside experienced account managers, administrators, electricians, and technicians.

Comprehensive and ongoing training to help you succeed in your career.

Insurance benefits including healthcare, dental, vision, 401k, and life insurance.

ERMCO is 100% employee owned and all corporate office employees are eligible for the employee stock ownership plan.
